## SupAir AltiRando Airbag

**Price per Unit (piece): £450.00 (including 17.5 % tax)**

Undoubtedly the biggest breakthrough in harness design for some years.

As a glider bag it's large enough to get a normal glider plus open-face lid or front reserve - and its very comfy. Turned inside out and almost by magic it becomes a fully protected harness with auto buckles.

Superb flying position, fine for XC flying, with speedbar routing. Brilliant as your only harness if you're a minimalist and excellent as a second harness for hiking/travelling. The AltiRando has a carbon seat plate and the beautiful new superlight quick-lock buckles.

Excellent bridle routing for a front mount reserve (available as an option)

- Suitability: Recreational/Lightweight
- Reserve: Front (optional)
- Buckles: Light Auto
- Protection: Double Cygnus
- Mesh Pockets on the rucksack exterior
- Adjustable seat extension
- Improved back support for 2008
- Improved carrying bridle for 2008
- Available in 4 sizes S->XL
- Weight: 2800g
- Comes with: Carbon seat
- Options: Crabs, Front reserve pod, Front reserve pod with Cockpit
